

JUCONI SPONSORSHIP
CHILD DEVELOPMENT PROGRAMME

CHILD DEVELOPMENT PROGRAMME

JUCONI is dedicated to working collectively with at-risk children, adolescents, and their families to reduce their interest and need to work on the streets of Guayaquil, Ecuador.

JUCONI's work commences in the suburban neighborhoods which is often characterized by extreme poverty, crime, violence, addictions, and abuse. This high-risk group of individuals provides personalized educational and therapeutic attention in a process that takes approximately three to four years depending on their needs and assessment. The ultimate goal is to eradicate child labor on the streets and inside the homes.

Sponsorship

The at-risk children, adolescents, and families that are a part of the **Child Development Programme** are assisted by a team of professionals that fulfill the role of guidance and structure in their respective homes.

In partnership with **your commitment** and **Together with the Children Foundation**, the child you sponsor will receive benefits on a **permanent basis throughout the year**. These benefits include but are not limited to:

- School expenses, including uniforms, shoes, and school supplies;
- Monthly food baskets that includes yogurt, milk, soybeans, oats, lentils, and quinoa;
- Coverage of emergency medical expenses;
- Personalized in-home visits, twice a week, by professional psychologists (family key workers);
- Personalized school visits, twice a month, by professional psychologists (family key workers);
- Semi-Annual Progress Reports on child's development;

The JUCONI Sponsorship Programme also aids to assist in the development of cognitive, social, emotional and physical skill sets through various artistic and educational activities.

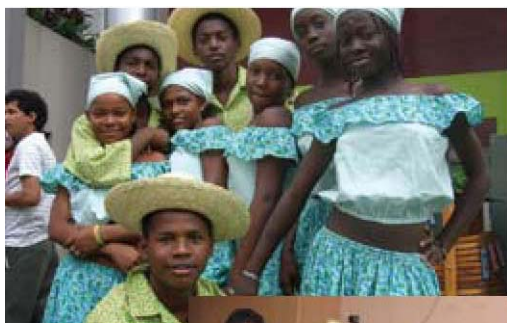

ART & PHOTOGRAPHY CLUB

The focus of the workshops is to improve self-esteem, promote teamwork, and generate creativity using arts as a form of expression and communication. Participants can explore their own values, views, and ideas in a safe, nurturing environment.

[The work of the children is on display at the Municipality of Guayaquil Museum.](#)

DANCE

This art form allows the children to create friendships, integrate socially, learn to dance, and express the value of their culture through music and dance.

SPORTING ACTIVITIES

Sporting activities not only contributes to the physical development of a child; but it also is a way to learn about teamwork, build social relationships, and understand the value of positive competitiveness and life skills.

CAMPING AND EXCURSIONS

Group activities such as camping and local excursions help generate positive behavior which helps the children maintain a better outlook about their future and their role in this world.

ENTERTAINMENT AND EVENTS

JUCONI seeks to provide an environment where the children can relax, play, and enjoy interacting with other children to strengthen their social skills while building fond, childhood memories they might not otherwise experience.

JUCONI FOLLOW UP:

JUCONI provides the sponsor with on-going information on the achievements and conditions of the children and their families.

JUCONI will provide:

- Semi-annual progress report on your sponsored child;
